Licorice: is widely used in bronchial problems such as catarrh, bronchitis and coughs in general. It forms an important ingredient in controlling peptic ulcerations, gastritis and ulcers. It nourishes the brain increasing cranial and cerebrospinal fluid. It also improves complexion, hair and vision. Licorice helps in cases of abdominal pain, bronchitis, colds, coughs, laryngitis and general debility. It acts as a heart tonic, laxative, mucus membrane toner and soother. It reduces hyperacidity, inflammation, muscle spasms, sore throat, ulcers and painful urination.

Licorice is: anti-inflammatory, anti-hepatotoxic, anti-spasmodic, demulcent, emetic, expectorant, laxative, rejuvenating, sedative and tonic.

- Helps in weight control treatments since licorice helps to maintain stomach acid levels.
- Helps for Respiratory Illnesses - licorice contain anti-allergic properties that is essential for the treatment of respiratory disorder.
- Anti-inflammatory - licorice acts on the tissue much the same way as cortisone but without the negative side effects.
- Tonic to help combat fever
